Subject: Price Increase Announcement: Effective 6/24/2019

Dear Valued Customer:

Due to a continued increase in non-metal raw material costs and eroding market conditions, Southwire is announcing an increase of 5-8% on aluminum building wire, 600 volt covered, and bare utility products. This increase is intended to protect the value that we and our partners provide to the market. The new 51AC/AR aluminum building wire and BA/CA 50 series price sheets will be posted to [www.southwire.com](http://www.southwire.com), dated June 24<sup>th</sup>, 2019. All orders must be received by the close of business on Friday, June 21<sup>st</sup>, 2019 to receive current pricing. Please contact your local Southwire representative for more information.

A handwritten signature in black ink, appearing to read "Jonathan Hendricks".
